This holistic approach positioned him as a pioneering figure in the field, especially concerning the concept of "Star People."

Understanding the "Star People"

Definition and Origins

The term "Star People" refers to beings believed to originate from other star systems or cosmic

realms who have interacted with Earth and humanity throughout history. These entities are often described as advanced, wise, and sometimes as guiding or protector figures. The concept has roots in various indigenous traditions, ancient texts, and modern UFO lore.

Steiger popularized the term through his writings, emphasizing that "Star People" are not merely extraterrestrial visitors but may also include interdimensional beings, ascended masters, or ancient cosmic intelligences. Their appearances are often linked to legends of gods, angels, or mythic heroes, suggesting a deep historical connection between humans and these cosmic entities.

Characteristics of the "Star People"

According to Steiger and others in the field, the typical attributes of Star People include:

- High intelligence and advanced technology
- Interest in human evolution and spiritual development
- Appearance often described as luminous, radiant, or possessing a shimmering aura
- Ability to communicate telepathically or through other non-verbal means
- Presence in various historical and contemporary sightings, abductions, and encounters

Historical and Cultural Perspectives on the Star People

Ancient Civilizations and Mythology

Many ancient cultures have stories that resonate with the idea of Star People, including:

- **Sumerians and the Anunnaki:** Ancient Sumerian texts describe deities known as Anunnaki, often linked to celestial origins and advanced knowledge.
- **The Dogon Tribe:** The Dogon people of Mali possess detailed knowledge of the Sirius star system, which they claim was imparted by visitors from the stars.
- **Ancient Egyptian Legends:** Depictions of gods descending from the sky and star-related symbolism suggest extraterrestrial influences.
- **Mayans and Aztecs:** Astronomical alignments and mythic stories hint at a connection to cosmic travelers.

Steiger argued that these stories are not mere myths but encoded memories of encounters with actual Star People who influenced early human civilization.

Modern Encounters and Reports

Throughout the 20th and 21st centuries, numerous reports of UFO sightings, crop circles, and abductions have been linked to the presence of Star People. These encounters often share common themes:

- Experiences of being taken aboard craft or into other dimensions
- Receiving messages about spiritual awakening and planetary evolution
- Witnessing advanced technology capable of manipulating space and time

Steiger emphasized that these reports suggest a continuing relationship between humans and Star People, evolving in tandem with Earth's spiritual and physical development.

Messengers of a New Age

Steiger and other researchers suggest that the Star People are preparing humanity for a significant shift—a "New Age" of peace, unity, and cosmic consciousness. This perspective frames encounters not as isolated incidents but as part of a larger cosmic plan.

Interdimensional Beings and Consciousness

Steiger's exploration extended into the idea that Star People may be interdimensional entities, capable of traversing different planes of existence. These beings might not be strictly physical but could exist across multiple dimensions, making their appearances and disappearances difficult to explain through conventional physics.
